Training
in
Tropical
Diseases
(TDR)

<u>Time Code</u>	<u>SCENE</u>
02 00 00	Man with elephantiasis (legs) walking across flooded road (India)
02 22 07	C/up of his foot
02 29 07	Men with elephantiasis (legs) caused by <i>Brugia</i> infection (India)
02 40 08	Man with elephantiasis (leg) walks toward the camera (Papua New Guinea)
02 53 14	Woman with elephantiasis of the breast (Papua New Guinea)
03 02 04	Man with hydrocoele (Ghana)
03 21 04	Woman with elephantiasis (legs) pounding grain (Kenya)
03 39 12	Woman with elephantiasis (leg) preparing food (Ghana)
03 55 06	Female medical worker talks to woman. Young woman with elephantiasis joins them
04 17 03	Inelastic skin due to elephantiasis of the arm (<i>Brugia</i> infection)
04 25 11	Doctor examining between toes (entry point of parasites causing secondary infection)
04 41 17	Mosquito vector taking a blood meal
04 47 03	Mosquito (<i>Mansonia</i>) larvae (+ c/up)
04 55 20	Drainage ditch (mosquito breeding site)
05 01 02	Water-filled open ditch (mosquito breeding site)
05 05 01	C/up ditch water and sampling for mosquito larvae
05 19 04	Weed-filled canal (India) breeding site for <i>Mansonia</i> mosquitoes
05 23 14	<i>Mansonia</i> egg clusters on the underside of aquatic weeds
05 29 15	Photomicrograph: infective larvae emerging from mosquito mouthparts
05 39 15	Environmental conditions for transmission: African village
05 50 18	Environmental conditions for transmission: African fishing
06 01 15	Environmental conditions for transmission: Indian canals
06 09 10	Giving bednets to community family (Brazil)
06 17 18	Distributing drugs to community (Brazil)
06 23 23	Pharmacy: distributing DEC tablets at night (India)
06 31 05	Mother and infant taking DEC + ivermectin tablets (Papua New Guinea)
06 37 02	Young boy taking DEC + ivermectin tablets (Papua New Guinea)
06 45 16	Bottles of pills - Albendazole and Diethylcarbamazine Citrate (DEC)
06 53 11	Putting same pills on a plate for patient to take - Mass Drug Administration (Samoa)
07 16 14	Same pills on a plate then taken by young boy (Samoa)
07 32 23	Bag of DEC fortified salt (India)
07 40 04	Woman cooking with salt (India)
07 53 19	Washing leg of man with elephantiasis
08 00 06	Applying antibiotic cream in between toes after washing
08 09 12	Backpack space-spraying with insecticide outside house to kill mosquitoes (Samoa)
08 23 23	Spraying ditch water using <i>Bacillus sphaericus</i> as a biocontrol agent (Mali)
08 41 02	Adding polystyrene beads to sewage pit to prevent mosquito breeding (Brazil)
08 58 22	Community clearing weeds (India)
09 14 08	Signs: Health education/community involvement (India)
09 19 24	Banner being erected - Mass Drug Administration (Samoa)
09 31 21	Night-time blood sampling (India)
09 45 23	Night-time blood sampling (Papua New Guinea)
09 50 06	Making blood smears (slides)
09 58 15	Ultrasonography (of hydrocoele) to locate adult worms
10 15 06	Lymphoscintigraphy: injecting radiolabelled dye
10 33 21	Woman getting under radiation detector
10 41 11	Doctor and computer monitor (+ c/up of damaged lymphatic vessels)
